

FRONTEND DEVELOPER

Braile Gawigawen

PROFESSIONAL SUMMARY

Developer with more than four years of experience as a web developer. Supported a B2B company by maintaining legacy systems and building internal web apps; joined a startup as a frontend developer; and given the opportunity to be part of a team for data integration from a CRM to a client website.

WORK EXPERIENCE

APPLICATION DEVELOPMENT TEAM LEAD, ACCENTURE PH — JUNE 2022 - APRIL 2024

Part of the Salesforce team where I was involved in two projects. As a JavaScript developer for a government website and a team lead for the integration team for an insurance company.

- **Web Survey** - Using a Salesforce portal, create a web survey for a certain page using pure javascript
- **Recommendation Section** - Using Salesforce Einstein recommendation, build using javascript a section on the client's website where users can see recommended services and/or products based on their history
- **Data Integration** - Developer and lead of the integration team to build the correct data from sales that will be sent to client's insurance website using Apex

[Javascript, Apex, Salesforce Object Query Language (SOQL)]

JUNIOR DEVELOPER, MORIVY DATA AND TECHNOLOGY — SEPTEMBER 2021 - MAY 2022

My first experience at a startup.

- **Bookkeeping App** - Assigned as a frontend dev for a web app for customer to upload payments they made for services provided by the company
- **Dashboard Pages** - Assigned as a frontend dev for the dashboard pages for the company services using Ant Design Chars

[ReactJs, NextJs, MySql, Tailwind]

WEB DEVELOPER, RESOURCE BOX INT'L — JANUARY 2018 - AUGUST 2021

My first job as a developer.

- **Pricing Portal** - A ticketing web app used by our pricing dept and Sales team for negotiating better pricing for customers.
- **Customer Registration Portal** - A web app for our compliance dept to register a customer who has submitted complete requirements for them to access our customer ordering portal and formulary.
- **Supply Chain Management Portal** - A ticketing web app for supply chain dept and pricing dept for negotiating better supplier pricing.

[PHP, Javascript, jQuery, MySql, REST, Bootstrap]
